**Spring 2010**

All graduate students in the online physical education degree program should consult with their advisor if they have questions prior to enrolling for spring classes. Spring classes begin January 5, 2009. **Registration for spring 2010 classes begins November 2, 2009.** In general, and depending upon how many courses you wish to take and where you are in your program of study, we suggest that you first consider taking either **Instructional Design and Content: Games** and/or the **Learner Assessment in PE** course. There are three elective courses offered this semester, **Sport in Society** and **Adapted Physical Education**. **The course Reflective Teaching in Physical Education is also available but is only for those students who are not currently certified to teach PE.**

The two required EDF courses listed below may require instructor permit. These two courses are offered every semester and are offered on campus as well as online. If you have difficulty getting into one of these two courses you should contact Debbie Infinger at [infinger@coedu.usf.edu](mailto:infinger@coedu.usf.edu) or 974-4647 to be permitted into the class.

As always, if you have questions email your advisor for assistance.
